

# INDONESIA'S FOREIGN POLICY IN ADDRESSING THE THREAT OF COVID-19

RETNO L. P. MARSUDI

Minister of Foreign Affairs of Republic of Indonesia

---

# NEW NORMAL

---

# KEY ISSUES

## (1) MAGNITUDE OF COVID-19 CHALLENGES

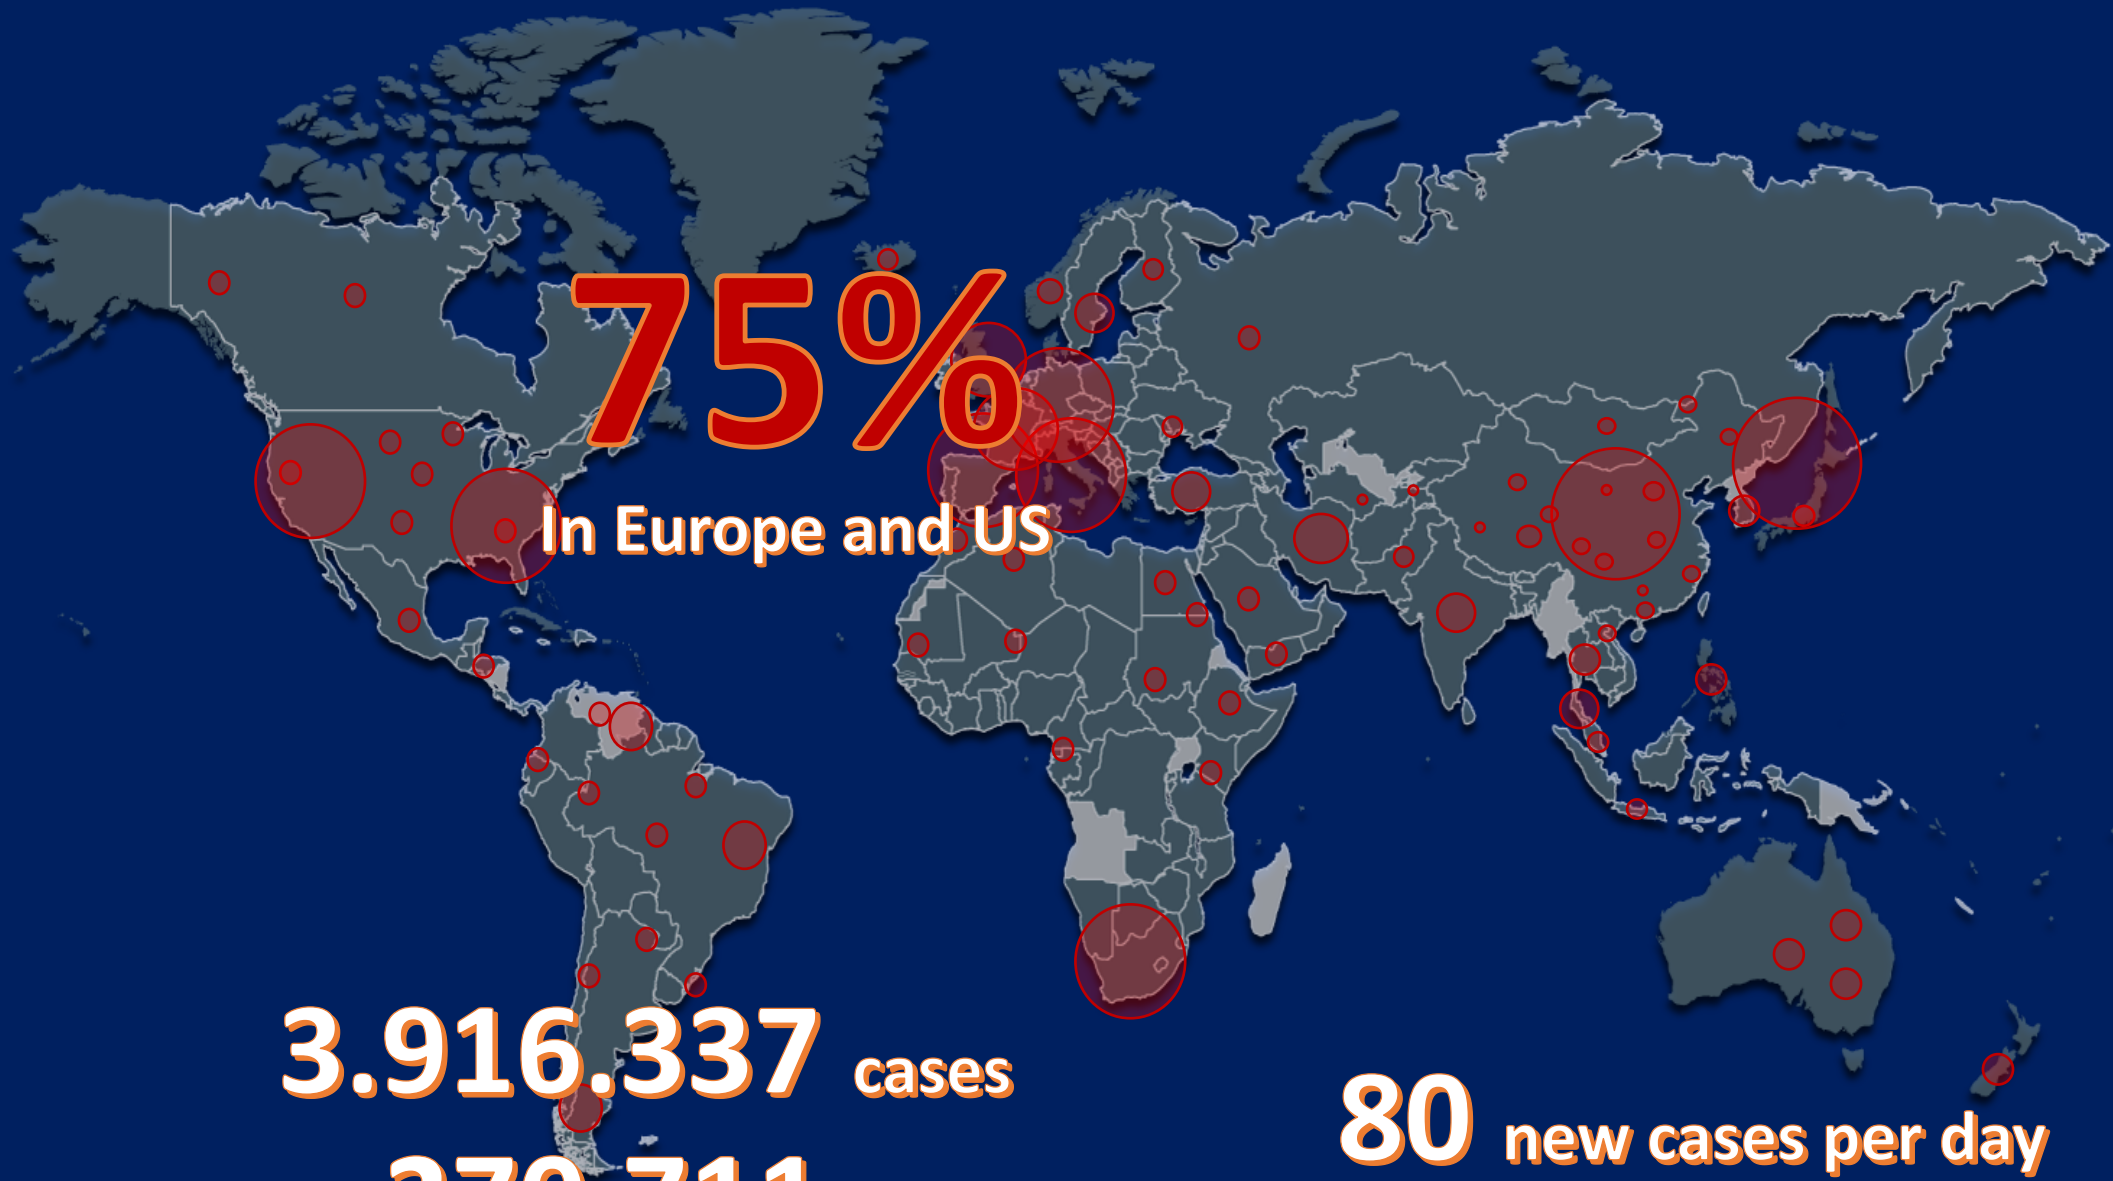

## (2) DIPLOMACY IN THE TIME OF COVID-19

## (3) OBSERVATION ON POST-COVID-19 WORLD

# RIPPLE EFFECTS FROM COVID-19

## WORST ECONOMIC CRISIS

since the Great  
Depression (IMF  
anticipation)

3% expected decline of  
global growth (IMF)

1% expected growth  
rate in **Southeast  
Asia region** (ADB)

2.97% Indonesia's economic  
growth in Q1 2020  
(BPS)

Informal  
economy  
workers affected  
(ILO)

1.6 BILLION

Rise of people  
living in poverty  
(UN Secgen)

500  
MILLION

Additional of people  
on the brink of  
starvation (WFP)

130  
MILLION

# COVID-19 EXPOSES DEEP INEQUALITIES

STAY  
HOME

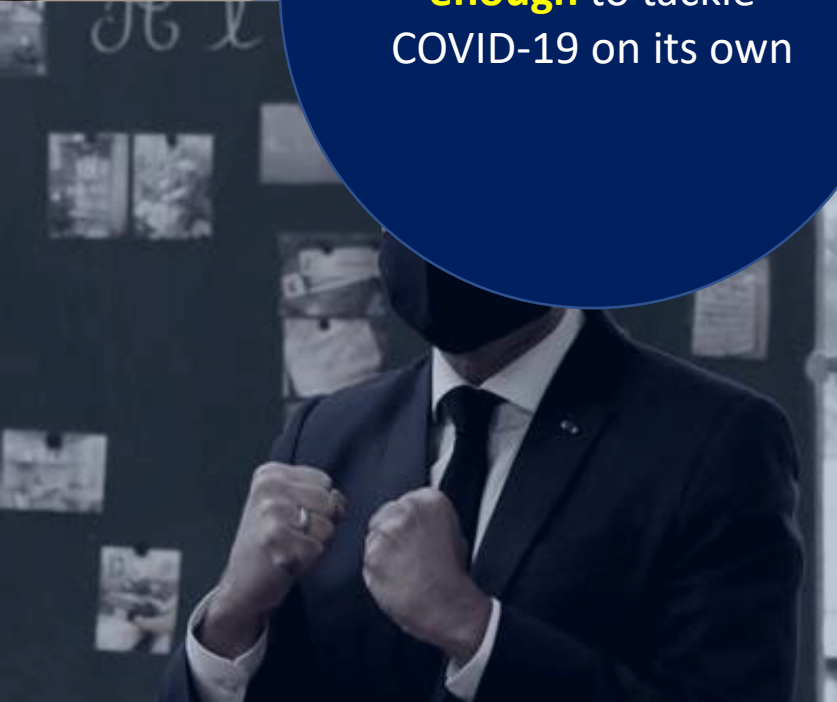

**No country is strong enough** to tackle COVID-19 on its own

Only by synergizing our strength and **keeping international cooperation alive** can we win this battle

Our **time** and **energy** must only be focused on what's important

presentation for FPCI

## CALL FOR SOLIDARITY

### UNGAR on Global Solidarity

Ghana, Liechtenstein, Norway,  
Singapore and Switzerland

+

**188 countries** then sponsored  
the resolution

### 2 Immediate Priorities

**Ensuring availability and access** to  
medical equipment, medicine and  
vaccines

+

**Ensuring** the flow of evacuation  
process

We must ensure all countries **have**  
**what it takes to defeat COVID-19**

# 4+1 DIPLOMACY

---

Addressing COVID-19 by **ensuring availability and access** to medical equipment, medicine and vaccines.

**Strengthening the protection** to Indonesian citizen abroad.

A photograph showing several healthcare workers in blue protective suits and masks, working at a table. They are handling white plastic bags and a blue container. The background is a clinical setting with white walls and equipment.

All Countries encounter **shortages** of various medical supplies. **We have to strengthen cooperation** for the provision of medical supplies

MASKER,  
THERMOMETER  
HAND RUB ....  
KASONG!!!

**The availability and steady supply** of medical supplies,  
Could make the differences in terms of lives we can save

### Indonesia Joint-Production

Japan & ROK to produce Personal Protective Equipment (PPEs)

### Indonesia's Urge

Smooth movement of essential goods and refrain from imposing trade barriers

**Diplomatic machinery must work creatively on bilateral level to fill shortages and make use of comparative advantages**

### International Support

9 Countries  
10 IOs  
82 NGOs

---

Indonesia seeks to be at the providing end

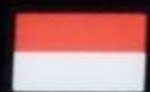

We are exploring the possibilities of **providing financial and in-kind assistance to countries** in our neighboring region

This is the time when  
**we must not be  
selfish**, we need each  
other to fight the  
pandemic together

INDONESIA BERSATU DENGAN  
SELURUH NEGARA ASEAN  
MELAWAN COVID-19

INDONESIA

presentation for FPGI

**We welcome helps** to alleviate our medical goods shortage, **but we are also ready to help!**

**1<sup>st</sup> country in WHO SEA region** to begin WHO Solidarity Trial

**22 Indonesian Hospitals** participate in this endeavor

Once vaccine is found,  
**it must be accessible  
and affordable** in  
timely manner to all  
countries

Innovation in vaccine  
development **must  
be protected** and  
rewarded

Vaccines is the  
**game changer** to  
this pandemic

# INTENSIVE COMMUNICATIONS

“We have a homework to **ensure that a global health system and governance are well-functioning**, particularly to facilitate equitable access to quality and cost-effective medical products and technologies”

# DIPLOMACY FOR PROTECTION

Ensuring safe and smooth evacuation process of people

**71.659**

Indonesians had returned home

**315.168**

Packs of basic needs distributed

**13.542**

Vessel Crews had returned home

**723** confirmed cases,  
**347** under cure, **338**  
recovered and **38** deaths

**7.000** Foreigners

Have been **facilitated with repatriation** to their home countries

Travellers, Experts, Diplomatic Corps

The process of repatriation is in accordance with the **national health protocols in line with WHO Standards**

**3.243** Indonesian have returned home from **23 countries**
